VAR Group - ROSA
[Recording, Organizing & Scheduling Assistant]

● ● ●

Sankeerthana Vegesna, Festus Asante, Garrit Reynolds

Roles

- Sankeerthana Vegesna (Backend Developer)
- Festus Asante (Frontend Developer)
- Garrit Reynolds (Full-Stack Developer)

Project Introduction

ROSA is a personal assistant designed to assist the user in scheduling, recording, and visualizing events in an organized fashion. The user can design interfaces specific to each event for recording information they choose. These events can be displayed on a calendar, the main menu, or filtered to visualize specific data. ROSA will improve productivity and promote a balanced lifestyle through its quick and flexible design.

Main Menu

- File Manager
- Journal
- Recording
- Scheduling
- Quick Notes
- Calendar

ROSA

10/22/2024-16:29

Functions

| File Manager | Journal | Custom Record | Clock In | Schedule Event | Quick Note | Calendar |

10/22 Tuesday

Health: Gym 11:00-12:02

10/23 Wednesday
